

Step 2 certification

To be certified in step 2, it is expected that:

- All new hires who care for patients directly receive at least 8 hours of training on breastfeeding.
- At least 80% of direct care staff should receive at least 3 hours of breastfeeding training every year.

Please answer the following questions:

1. Do newly hired direct care staff receive at least 8 hours of breastfeeding training within 6 months of hire?

☐ Yes ☐ No

2. In the last year, what percent of direct care staff have received at least 3 hours of training on breastfeeding support? (Do not include staff hired within the last 6 months in this count.) _____ %

Numerator= number of direct care staff who received training on breastfeeding support.

Denominator= number of direct care staff.

3. How is this training completed?

4. What main topics are covered in this training?

5. How is staff participation in these trainings monitored?
